PROFESSIONAL EXPERIENCE

DHL Supply Chain, Atlanta, GA

Systems Supervisor

January 2017 to Present

- Assisted in the system configuration and successful start-up of a 400,000 sq. ft. facility
- Helped to facilitate transfer of \$100M worth of product from an existing site to the new facility
- Created a site Training Center involving custom DDA's allowing for new hire training in the test environment
- Developed Virtual Allocation Tool DDA for RedPrairie, decreasing unnecessary order cuts by 50%
- Helped to pioneer the use of Kronos views in DHL's data display tool for use in site CIP
- Developed several custom RedPrairie DDA's saving the site \$50,000+ in development costs
- Managed a work zone interleaving project, increasing site UPH by 1+ units for several job codes
- Selected as part of DHL's exclusive Emerging Leaders program directed at cultivating top talent
- Participated in User Acceptance Testing and network Batch Update
- Acted as site tester for 5+ new MOCA commands/DDA's and had them patched to the production environment
- Crafted numerous SQL queries aimed at helping the site meet customer-mandated KPIs

Operations Supervisor

June 2016 to January 2017

- Participated in the implementation and start-up of JDA WFM 2009 at the site
- Reduced shift headcount from 42 to 33 following JDA WFM ramp-up
- Assisted in the implementation of Crown's InfoLink fleet management system on all site lift trucks
